SAMPLE RESUME · REPLACE PLACEHOLDERS BEFORE USE

PROFILE

B.Tech Computer Science and Engineering student interested in Artificial Intelligence, Machine Learning, full-stack development, software engineering, and problem solving. Enjoys transforming ideas into useful applications and continuously learning how technology works behind the scenes. Career goal: grow into an AI/ML and software developer building meaningful real-world applications.

EDUCATION

[College / university name — add]

B.Tech in Computer Science and Engineering

Current · Expected graduation: [add year]

TECHNICAL SKILLS

- **Programming languages:** Java, Python, C, JavaScript
- **Frontend:** React, HTML, CSS, responsive UI development
- **Backend and APIs:** Node.js, Flask, REST APIs
- **Tools:** Git, GitHub, local servers, APIs, automation tools
- **Computer science:** Data structures, algorithms, problem solving, object-oriented programming, software engineering concepts
- **AI and emerging technologies:** Artificial Intelligence, Machine Learning, Generative AI, AI-powered applications, automation

PROBLEM-SOLVING PRACTICE

Actively practices arrays, hashing, sliding window, binary search, stacks, queues, linked lists, trees, graphs, sorting, and bit manipulation.

PROJECT WORK

Add completed projects before using this resume. No completed project details were supplied for this sample. Replace this note with verified project titles, dates, technologies, links, and factual contributions only after the work is complete.

Sample template · Education, contact, and project placeholders must be replaced with verified information before applying.
